O NAMA

Visoko-tehnološka nacionalna kompanija Koloid, sertifikovana za obavljanje inovacione delatnosti od strane Ministarstva nauke, tehnološkog razvoja i inovacija Republike Srbije, sa sedištim u Beogradu, Moskvi, Nemačkoj, Kanadi, Bugarskoj, Sloveniji, na Kipru, kao i poslovnica u širem regionu, je još pre 16 godina imala viziju da je tehnologija dobijanja koloidnog srebra i njegova integracija u biomaterijale budućnost. Na taj način, idući korak ispred vremena, Koloid je uspeo da svojim inovacijama inicira promene u sferi biomedicine.

Razvoj kompanije išao je korak po korak, najpre u pravcu razvoja monokomponentnih, sve do složenih preparata na bazi čistog srebra, za gotovo sva indikaciona područja. Svi naši proizvodi koncipirani su na naučnoj osnovi i podržani su empirijskim iskustvom.

Svojim stručnim resursima i timom eksperata iz oblasti farmacije, hemije i tehnologije, u sopstvenoj laboratoriji i proizvodnom pogonu, koristeći isključivo domaće sirovine, proizvodimo kvalitetne, efikasne i bezbedne preparate na potpuno prirodnoj bazi. Posebnu pažnju poklanjamo proveru kvaliteta svake pojedinačne serije proizvoda, a naš rad odvija se u skladu sa ISO 9001, 13485, 14001, HACCP i GMP standardima, za koje posedujemo i međunarodno priznate sertifikate. Naše proizvode prepoznali su i korisnici Evropske Unije, Rusije i Kanade, te Colloid brend stiče renome i na svetskom tržištu.

Sa nama je budućnost već stigla!

ABOUT US

The high-tech national company *Koloid* is certified by the Ministry of Science, Technological Development and Innovation Republic of Serbia, to carry on innovation activities, and operates from Belgrade, Moscow, Germany, Canada, Bulgaria, Slovenia, Cyprus and via regional branches, with a vision born 16 years ago that the technology for producing colloidal silver and integrating it into biomaterials was the future. By doing so, and being ahead of its time, *Koloid* has succeeded in initiating change in biomedicine through its innovations.

The company's development was phased, primarily focused on creating a range of products from mono-component to complex pure silver-based covering almost every topical administration, using only local ingredients. All our products are scientifically designed, and supported by empirical evidence.

Our expert resources and team of experts in pharmacy, chemistry and technology, in our own laboratory and production facilities, enable us to produce quality, efficient and safe all-natural products. We place particular emphasis on assuring the quality of each product lot. We operate according to and hold internationally recognized certification for the ISO 9001, 13485, 14001, HACCP and GMP standards. Our products have been also recognised by users in the European Union, Russia and Canada, earning the Colloid brand a reputation on the global market as well.

With us the future is already here!

O SREBRU AG⁺

Hiljadama godina pre nego što je stvoren prvi antibiotik, srebro je korišćeno kao osnovno sredstvo u rešavanju brojnih zdravstvenih problema. I mada je rapidnim rastom farmaceutske industrije ova činjenica stavljena u drugi plan, mnogobrojna istraživanja stručnjaka u proteklim decenijama potvrdila su da osim srebra, u prirodi ne postoji drugo sredstvo koje blagotvornije deluje na opšte zdravlje čoveka, bez ikakvih neželjenih dejstava.

Mehanizam delovanja srebra na veliki broj zdravstvenih tegoba je inhibicija respiratornog enzima ćelije patogenog mikroorganizma. Srebro deluje kao katalizator, blokirajući određene enzime koje bakterije, virusi i gljivice koriste u svom metabolizmu, usled čega ovi izazivači bolesti ostaju bez kiseonika i hrane i raspadaju se, a nakon toga telo ih izbacuje pomoću sistema organa za izlučivanje. Ovaj proces odvija se tako brzo i efikasno, da nijedan mikroorganizam ne stigne da mutira, odnosno stekne otpornost.

Istovremeno, ćelije našeg tkiva ostaju netaknute, jer su proces i mehanizam kojima one sebi obezbeđuju kiseonik drugačiji od onog koji upotrebljavaju bakterije za isti proces. Uneti u organizam u koloidnom obliku, joni srebra podižu energetske nivo ćelija, a time i ceo imuni sistem organizma.

ABOUT SILVER AG⁺

For thousands of years, long before the first antibiotic was made, silver had been used as the only agent to tackle numerous health problems. Despite pharmaceutical industry progress having pushed this element into the background, over the past several decades many researchers have proven that there is no naturally-occurring agent which is more beneficial to human health than silver, without any side effects.

Silver works against a plethora of ailments by inhibiting the respiratory enzyme of the pathogen's cell. Silver acts as a catalyst blocking certain enzymes, which bacteria, viruses and fungi use in their metabolism, starving these infectious agents of oxygen and food and causing them to decay, with the body flushing them out through the excretory system. This process happens so quickly and efficiently that no germ can mutate or become resistant.

At the same time, our body cells remain intact, as their oxygen supply mechanism is totally opposite to that employed by bacteria. Taken in colloidal form, silver ions put a spring in our step and at the same time boost our immune system.

SILVER WATER PREMIUM

Jača imuni sistem, smanjuje prisutnost mikroorganizama i ima blagotvoran učinak na suzbijanje svih tipova infekcija i upala. Pomaže regeneraciji i podmlađuje organizam. Veća koncentracija jona srebra (30 ppm), ostvaruje snažnije antimikrobno dejstvo, dva puta brže od Srebrne vode jačine 15 ppm.

It boosts the immune system, curbs pathogens and contributes to combatting all types of infections and inflammations. It aids regeneration and rejuvenation. A higher silver ion concentration – 30 ppm – produces a more potent antimicrobial effect, 2 times faster than a Silver Water concentration of 15 ppm.

30 ppm koloidnog srebra.
Colloidal Silver 30 ppm.

Namenjena za sve uzraste.
Intended for all ages.

Preporučuje se za poboljšanje imuniteta i opšteg stanja organizma. Srebrna voda jačine 30 ppm je efikasna alternativa antibioticima, jer joni srebra oštećuju ključne enzime u ćelijama membrana patogena.

Recommended for boosting the immune system and overall wellness. 30 ppm Silver Water is an efficient alternative to antibiotics, as silver ions cause damage to key enzymes in a pathogen's cell membranes.

Naučno istraživanje radeno in-vitro sprovedeno još davne 2003. godine na Univerzitetu Severni Teksas, pokazalo je uticaj srebra na veliki broj patogenih mikroorganizama.

----> Staphylococcus

Populacija od oko 10 miliona jedinki uništena je posle samo 4 minuta izloženosti u koncentraciji od 15 ppm.

A population of app. 10 million was destroyed after only 4 minutes of exposure with a 15 ppm concentration.

----> Salmonella

Populacija od oko 10 miliona jedinki uništena je posle 7 minuta izloženosti u koncentraciji 15 ppm.

A population of app. 10 million was destroyed after 7 minutes of exposure with a 15 ppm concentration.

----> Candida

Populacija više od milijardu jedinki uništena je posle 2 minuta izloženosti u koncentraciji 15 ppm.

A population of more than one billion was destroyed after 2 minutes of exposure with a 15 ppm concentration.

----> Escherichia coli

Uzročnik trovanja hranom. Inhibirana je u rastvoru od 2,5 ppm, a ubijena u rastvoru od 5 ppm.

A cause of food poisoning. It was inhibited with a 2.5 ppm solution and killed with a 5 ppm solution.

----> Streptococcus pneumonie

Izazivač pneumonije, meningitisa, sinuzitisa, upale uha, inhibirana je koncentracijom od 5 ppm.

A cause of pneumonia, meningitis, sinusitis, ear inflammation. It was inhibited with a 5 ppm concentration.

In-vitro scientific research conducted way back in 2003 at the University of North Texas proved the effect of silver on a large number of pathogens.

----> **Streptococcus mutans**

Glavni uzročnik zubnih naslaga, upala desni i karijesa, ubijena je pri koncentraciji od 5 ppm.

The major cause of dental plaque, gum inflammation and tooth decay was killed with a 5 ppm concentration.

----> **Salmonella arizonae**

Uzročnik trovanja hranom. Inhibirana je u rastvoru od 2,5 ppm, a ubijena u rastvoru od 5 ppm.

A cause of food poisoning. It was inhibited with a 2.5 ppm solution and killed with a 5 ppm solution.

----> **Shigella Boydi**

Izazivač dizenterije. Inhibirana je rastvorom koncentracije 1,25 ppm, a ubijena rastvorom od 2,5 ppm.

A cause of dysentery. It was inhibited with a 1.25 ppm concentrated solution and killed with a 2.5 ppm solution.

----> **Staphylococcus aureus**

Izazivač upale pluća, infekcije oka, sepse, rana, meningitisa, inhibirana rastvorom 2,5 ppm, a ubijena rastvorom od 5 ppm.

A cause of pneumonia, eye infection, sepsis, wounds, meningitis. Inhibited with a 2.5 ppm concentrated solution and killed with a 5 ppm solution.

----> **Pseudomonas aeruginosa**

Infekcija opekotina, rana, pneumonija, meningitisa, infekcija urinarnog trakta, inhibirana u koncentraciji od 2,5, a ubijena koncentracijom od 5 ppm.

A cause of burn and wound infections, pneumonia, meningitis, urinary tract infections. It was inhibited with a 2.5 ppm concentration and killed with a 5 ppm concentration.

MATRIX BODYCODE

Precizno izbalansirani sastojci preparata vrše transportovanje aktivnih komponenti direktno do obolelog zgloba, stimulišući prirodnu sposobnost tela za zaustavljanje upalnih procesa. Glukozamin sulfat i hondroitin kreiraju faktor biološkog matriksa, čime pospešuju rast ćelije i vrše regeneraciju zglobova.

Rigorously balanced ingredients transport the active components directly to the affected joint, stimulating the body's natural ability to counter inflammation. Glucosamine sulfate and Chondroitin create the biological matrix factor and thereby regulate cell growth and joint regeneration.

Glukozamin sulfat, hondroitin (hondroitin sulfat), MSM (metilsulfonilmetan), L-arginin, L-prolin.

Glucosamine sulfate, Chondroitin (Chondroitin sulfate), MSM (methylsulfonyl-methane), L-Arginine, L-Proline.

Za uzrast 18+.
For ages 18+.

Snažnim protivupalnim dejstvom ciljano deluje i za kratko vreme oslobađa bola. Preporučuje se za olakšanje bolova u zglobovima, kod upala i hroničnog bola u mišićima, za regeneraciju ligamenata i tetiva i sprečavanje propadanja hrskavice. Pruža fleksibilnost i snagu mišićima, podstiče sintezu kolagena i elastina.

Owing to its potent anti-inflammatory effect it targets the specific region and relieves pain after 5 to 7 days of regular use. Recommended for relieving joint pain, inflammation and chronic pain, regeneration of ligaments and tendons and preventing cartilage deterioration. Stimulates the synthesis of collagen and elastin.

ZA ČIŠĆENJE I ZAŠTITU MOBILNIH TELEFONA
KEEP YOUR PHONE CLEAN AND PROTECTED

MOBILE CLEANER

Inovativno sredstvo sa jonima srebra za zaštitu i čišćenje svih vrsta mobilnih telefona. Posebno se preporučuje korisnicima uređaja sa touch screen ekranom, koji su zbog načina korišćenja najviše izloženi direktnom spoljašnjem uticaju patogena. Redovnom upotrebom spreja čestice srebra se zadržavaju na površini mobilnog uređaja, pri čemu stvaraju nevidljivi elektrostatički film, koji blokira taloženje neželjenih mikroorganizama i prljavštine.

An innovative product with silver ions for protecting and cleaning all types of mobile phone. It is specifically recommended for touch screen phone users who have increased direct exposed to pathogens. Regular spraying results in silver particles lingering on the surface of the mobile device, creating an invisible electrostatic coat blocking the build-up of unwanted microbes and dirt.

Preporučuje se za dugoročnu zaštitu mobilnih uređaja, kao i za čišćenje, održavanje i zaštitu ekrana TV uređaja, lap-top uređaja, desktop računara, tableta, kao i predmeta i uređaja koji se svakodnevno koriste.

SELF-CLEANING BARRIER
SILVER MASK

Samočisteća barijerna Srebrna maska je proizvod sa jonima srebra i zeolitom, koji ostvaruju učinak od 99,99% u filtriranju i neutralizaciji patogena. Prednost maske ogleda se u činjenici da se njena efikasnost tokom vremena korišćenja ne smanjuje, a bezbedna je za upotrebu i do 30 dana.

Srebrna maska je kreirana ultrazvučnom jonizacijom, koja u troslojnu, zaštitnu tkaninu, integriše jone srebra čistoće 99,99 Ag+ i zeolit klinoptilolit u nevidljivi molekularni film (1-2 mikrometra debljine). Na taj način višeslojna tkanina maske filtrira patogene mikroorganizme koji dođu u dodir sa njenom površinom i tako neutrališe njihovo prisustvo.

Silver Mask, created using ultrasound ionisation to permanently integrate silver ions of 99.99 Ag+ purity and zeolite clinoptilolite as an invisible molecular coat (1-2 micrometres in thickness) into triple-layer protective fabric and provide the most efficient protection against pathogens.

Owing to the very structure of the material and strong ionising effect of silver ions and zeolite, Silver Mask has a longer-lasting effect than standard face masks.

Anticelulit gel sa efektom grejanja štiti kožu od štetnih spoljašnjih uticaja, sprečavajući upalne procese kože. Primetan efekat zagrevanja pogoduje nezi kože zahvaćene celulitom, redukuje nesavršenosti izazvane taloženjem masnih naslaga na kritičnim područjima. Svojim aktivnim sastojcima, a u kombinaciji sa jonima srebra, štiti kožu od štetnih spoljašnjih uticaja, izgradnjom pravilnog imuniteta, sprečavajući upalne procese kože.

Anti-cellulite gel with heating effect protects the skin against outside adverse factors, preventing skin inflammation. A substantial heating effect benefits cellulite-affected skin care and reduces imperfection caused by accumulated fat in critical regions. Its active ingredients, coupled with silver ions, protect the skin against outside adverse factors by boosting good immunity and preventing skin inflammation.

THERMOACTIVE ANTI-CELLULITE GEL WITH COOLING EFFECT

CELLUEXTREME FREEZE

Zahvaljujući balansiranoj formuli prepunoj sastojaka visokih performansi, ubrzano topi masne naslage, koži vraća čvrstinu i eliminiše celulit. Aktivan sastojak koji dovodi do osećaja hlađenja pokreće intenzivan rad mišićnog tkiva, stimulišući odvođenje potkožne tečnosti putem limfnih kanala, pri čemu dolazi do oslobađanja od štetnih materija i toksina.

Owing to a balanced formula abundant with high-performance ingredients, it quickly reduces fat, tightens the skin and eliminates cellulite. The active ingredient yielding the cooling effect initiates the muscle tissue's intensive activity, stimulating the drainage of subcutaneous liquid through lymphatic channels, excreting harmful substances and toxins.

Anticelulit gel sa efektom hlađenja eliminiše osećaj „teških nogu“, sprečavajući pojavu otoka. Ubrzava metabolizam, sagoreva masne naslage, poboljšava cirkulaciju krvi i limfe, što dovodi do detoksikacije tela i vidljive redukcije masnog tkiva. Svojim aktivnim sastojcima, u kombinaciji sa jonima srebra, štiti kožu od štetnih spoljašnjih uticaja, izgradnjom pravilnog imuniteta, sprečavajući upalne procese kože.

Anti-cellulite gel with cooling effect eliminates the "heavy legs" feeling, preventing the onset of swelling. It speeds up metabolism, burns fat, and improves blood and lymph circulation, detoxifying the body and visibly reducing fat. Its active ingredients, coupled with silver ions, protect the skin against outside adverse factors by boosting good immunity and preventing skin inflammation.

SA JONIMA SREBRA, ULJIMA ŠARGAREPE I LEŠNIKA
WITH SILVER IONS, CARROT AND HAZELNUT OILS

SILVER SUN PROTECT SPF 15

Inovativna formulacija integriše jone srebra sa uljima šargarepe i lešnika, pružajući koži maksimalnu negu i ekstra zaštitu od sunčevih zraka i oštećenja koje sunce može prouzrokovati na koži. Beta karoten u ulju šargarepe štiti kožu od oksidacijskih oštećenja tokom izlaganja suncu i UV zraka. Ulje lešnika štiti od UVA i UVB zračenja i sprečava starenje kože uzrokovano izlaganjem suncu.

An innovative formula integrates silver ions with carrot and hazelnut oils, providing ultimate skincare and additional protection from sunrays and skin damage caused by the sun. Beta-carotene in carrot oil protects the skin against oxidative damage during exposure to the sun and UV rays. Hazelnut oil protects against UVA and UVB rays and prevents skin ageing caused by sun exposure.

Nakon nanošenja Silver Sun Protect kreme joni srebra dubinski prodiru ispod epiderma, vezujući kiseonik u ćelijama potkožnog tkiva, što smanjuje oksidativni stres kože koji nastaje za vreme izlaganja sunčevim zracima. Ulje šargarepe jača imunitet kože, pomaže u lečenju opekotina i ubrzava tamnjenje kože tokom sunčanja. Ulje lešnika filtrira štetno sunčevo zračenje i vraća elastičnost i vlažnost koju koža gubi za vreme sunčanja. Krema je vodootporna, nema lepljivog osećaja i koža je trenutno upija.

On applying Silver Sun Protect cream, silver ions penetrate deep under the epidermis, binding oxygen in the subcutaneous tissue cells, reducing the skin's oxidative stress during sun exposure. Carrot oil boosts the skin's immunity, helps heal burns and accelerates skin tanning during sunbathing. Hazelnut oil filters harmful sun rays and restores the elasticity and moisture that the skin loses during sunbathing. The cream is waterproof, non-greasy and instantly absorbing.

SILVER SUNSET GEL

Inovativna formulacija sa jonima srebra i obiljem aktivnih sastojaka, pruža koži maksimalnu negu i ekstra zaštitu nakon sunčanja i oštećenja koje sunce može prouzrokovati na koži. Gel je pogodan za sve tipove kože, kao i za osjetljivu kožu sklonu alergijama na sunce.

Gel hidrira, hrani i štiti kožu, čime usporava njeno starenje i ona ostaje elastična i nežna. Prijatno hladi, ublažava crvenilo i iritacije i omekšava kožu.

An innovative formula with silver ions and an abundance of active ingredients provides ultimate skincare, additional aftersun care, and protection against skin damage caused by the sun. The gel is suitable for all skin types, including sensitive skin prone to sun allergy. The gel hydrates, nourishes and protects the skin, thus slowing down its ageing and keeping it elastic and tender. It has a pleasant cooling effect, reduces redness and irritation and softens the skin.

Colloidal silver, Uniglukan G-51, D-Panthenol, Hammamelis extract, Unitamuron H-22, Pantrofina skin, Bisabolol, Poliglutamic acid.

For adults.

Prilikom nanošenja SILVER SUNSET GELA joni srebra oblažu kožu tankim, nevidljivim filmom, koji momentalno ublažava crvenilo kože nastalo za vreme izlaganja suncu i sprečava nastanak alergijskih reakcija. Hamamelis ekstrakt ublažava crvenilo i opekotine na koži. Pantrofina skin je moćan umirujuć čistač radikala, specifičan za prevenciju fotostarenja. Bisabolol ublažava iritaciju, crvenilo kože i eriteme uzrokovane UV zracima. D-Panthenol regeneriše kožu oštećenu prekomernom izlaganju sunčevim zracima.

On applying SILVER SUNSET GEL, silver ions coat the skin with a thin, invisible film, which instantaneously soothes skin redness from sun exposure and prevents the onset of allergic reactions. Hammamelis extract soothes skin redness and burns. Pantrofina skin is a potent free radical scavenger, specific for photoageing prevention. Bisabolol alleviates skin irritation and redness and the erythema caused by UV rays. D-Panthenol regenerates the skin damaged by overexposure to sun rays.

Micelarne blaznice od 100% čistog pamuka jedinstvene formulacije privlače svu nečistoću sa lica otklanjajući i najuporniju šminku, kao i višak sebuma, a kožu čine mekom i hidriranom. Prilikom korišćenja, joni srebra stvaraju zaštitni film na površini kože, koji je čuva od nepovoljnih spoljnih uticaja. Blagom i efikasnom formulacijom održavaju balans fiziološke mikroflore i na taj način doprinose zdravom izgledu kože.

100% pure cotton micellar pads with a one-of-a-kind formula trap all dirt from the face, removing the most persistent makeup and excess sebum, making the skin soft and hydrated. Silver ions create a protective coat on the skin, safeguarding it from outside adverse factors. Its mild and efficient formula maintains the balance of physiological microflora, contributing to the skin's healthy look.

Namenjene su uklanjanju šminke i svih vrsta nečistoća sa kože lica, predela oko očiju i vrata, a naročito su pogodne za iritiranu kožu. Ne ostavljaju mastan trag, perfektно čiste kožu lica, zahvaljujući formuli bez sapuna, boja i parabena. Redovnom upotrebom uspešno se mogu redukovati simptomi osetljive dehidrirane kože lica, izazvani smanjenim brojem distributivnih kanala za hidrataciju u koži.

Intended for removing makeup and all dirt from the face, around the eyes and neck, and suitable for irritated skin in particular. They are non-greasy, and immaculately clean the facial skin, owing to a formula free from soap, colouring or paraben. Regular use efficiently reduces the symptoms of sensitive, dehydrated facial skin, caused by fewer distributing channels for skin hydration.

ULTRAPOWER OF COLLOID® TECHNOLOGY

ULTRASONIC VEHICLE DISINFECTION MACHINE

Nakon višegodišnjeg istraživanja na polju biomedicine, savremenim tehnološkim postupkom i po principima najviših svetskih standarda, Koloid je lansirao potpuno prirodnu tehnološku inovaciju, COLLOID®, formulaciju koja nije zastupljena nigde u svetu, sa ciljem da je implementira u biomedicinske svrhe u oblasti auto industrije. U pitanju je tehnologija koja u kabinskom prostoru, sistemu ventilacije i klima uređajima prevoznih sredstava, vrši efikasnu neutralizaciju virusa, bakterija i ostalih patogena i prečišćava vazduh.

Following multi-year research in biomedicine using a state-of-the-art technological process in line with the highest global standards, Koloid has launched an all-natural technological innovation, COLLOID® - a one-of-a-kind formulation - for biomedical purposes in the automotive industry. This technology efficiently neutralises viruses, bacteria and other pathogens and purifies the air in the vehicle interior, ventilation and A/C systems.

Idealan za primenu u automobilima, autobusima, kombi vozilima.

Ideal for cars, buses, vans.

Primena COLLOID® tehnologije u budućnosti će očigledno biti prepoznata, jer je u pitanju jedna od najjačih alternativnih i potpuno prirodnih biomedicinskih formulacija koja se koristi za dezinfekciju kabinskog prostora, sistema ventilacije i klima uređaja u automobilima.

The application of COLLOID® technology is set to be recognised in the future as it is one of the most potent alternative and all-natural biomedical formulations used for disinfecting vehicle interiors, ventilation and A/C systems.

SILWEAR SENSE

Silwear sense proizvodi od najkvalitetnije svile i organskog sertifikovanog pamuka vrhunskog kvaliteta, izrađuju se najsavremenijom tehnologijom srebrnih jona i zeolita. Ideja da ultrazvukom integrišemo srebro čistoće 99,99 Ag+ i zeolit klinoptilolit u naše proizvode pokazala se kao veoma uspešna, imajući u vidu da ovakvi materijali imaju veliku otpornost na mikroorganizme i veoma povoljno utiču na zdravlje kože i kose.

Koncentracija jona srebra integrisanog u svileni i pamučnu tkaninu ima izuzetan uticaj na antimikrobnu efikasnost materijala. Joni srebra deluju antibakterijski i antimikrobno, a sam kvalitet tkanine pruža besprekoran osećaj mekoće i udobnosti.

Silwear Sense products made of the finest silk are premium quality, owing to state-of-the-art technology employing silver ions and zeolite. The idea to use ultrasound to integrate silver of 99.99 % purity and zeolite clinoptilolite into our silk products has proven highly successful considering that silk treated in that manner is highly resistant to a plethora of microorganisms and highly beneficial to skin and hair health.

The concentration of silver ions integrated in silk and cotton fabrics has an excellent effect on the antimicrobial efficiency of the fabrics. Silver ions are antibacterial and antimicrobial, and the quality of the fabric gives a perfect feeling of softness and comfort.

SILVER PET

Silver Pet kolekcija za negu i zaštitu kućnih ljubimaca, na bazi koloidnog srebra, zeolit klinoptilolita, biorazgradivih komponentata i ulja organskog porekla, bez sulfata, sadrži veliki izbor šampona za kupanje pasa sa problematičnom dlakom, kao i šampona za kupanje štenaca i mačaka. Šamponi dubinski čiste dlaku, ostavljaju svež miris i ističu prirodnu boju i sjaj dlake. Koloidno srebro eliminiše patogene mikroorganizme sa kojima kućni ljubimci dolaze u kontakt, a zeolit vrši dubinski detoks, kako kože, tako i dlake.

Silver Pet kolekcija sadrži dermatološke, vitaminske i detox šampone, kao i šampone za štence i mačke koji ne suze oči, sa pH vrednošću 6.5-7, kao i šampon za tretiranje svetle dlake.

Silver Pet Kolekcija sadrži i tečnost sa srebrom za tretiranje uveta, tečnost za skidanje mrlja ispod oka, tečnost protiv kamenca, dvokomponentnu tečnost za svakodnevno tretiranje i raščesljavanje dlake, kremu za zaštitu šapa (na bazi srebra, voska i meda), sprej za lepši dah, kao i sprej na bazi srebrne vode i eteričnih ulja protiv buva i krpelja.

Silver Pet pet care and protection products, formulated using colloidal silver, zeolite clinoptilolite, biodegradable components and organic oils, sulphate-free, come in a wide range of shampoos for bathing dogs with problematic hair and shampoos for bathing puppies and cats. The shampoos deep cleanse the hair, leaving a fresh scent and highlighting the natural hair colour and shine. Colloidal silver eliminates pathogens our pets come in contact with, while zeolite detoxifies both the skin and the hair deep inside.

Silver Pet products contain dermatological, vitamin and detox shampoos, including tear-free shampoos for puppies and cats, with a 6.5-7 pH, and a light hair treatment shampoo.

Silver Pet products also include a silver-containing liquid for ear treatment, anti-eye crust liquid, anti-calculus liquid, bi-component liquid for daily hair treatment and detangling, paw protection cream (silver-, wax- and honey-based), breath spray, and a spray formulated using silver water and essential oils against fleas and ticks.

NAŠA VIZIJA

Vizija kompanije Koloid, orijentisana ka rastu i razvoju novih proizvoda, usko je povezana sa umećem osluškivanja stvarnih potreba naših korisnika, koji su prepoznali različitost, kao ključnu vrednost našeg poslovanja. Naš stav je da su visoka stručnost zaposlenih kadrova, rigorozni higijensko-bezbednosni standardi, adekvatna oprema i kontrolisani uslovi radne sredine, jedini pravi put za kreiranje i razvoj proizvoda vrhunskog kvaliteta.

Ovu činjenicu potvrđuje besprekoran rad našeg proizvodnog pogona, razvijenog u saradnji sa partnerima iz Nemačke, Kanade i Amerike, koji sublimira nekoliko proizvodnih jedinica. Proizvodni pogon kompanije Koloid funkcioniše po principima vrhunskog standarda proizvodnog menadžmenta, počev od procesa ulaza sirovina, sve do finalnog proizvoda.

U narednom periodu naša vizija je proširenje proizvodnih pogona, unapređenje tehnologije rada, kao i plasman proizvoda na ostala strana tržišta. Poslovati, neprestano rasti i razvijati se, izazove pretvoriti u prednost, a viziju pretočiti u ostvarenje je inspiracija koja nas vodi da stalno idemo napred. Na takav način odnosimo se prema zaposlenima, životnoj sredini i zajednici uopšte. Obrazovanje, usavršavanje i motivacija zaposlenih su prioritet kompanije, a društveno-odgovorno poslovanje je naše osnovno načelo.

Cilj nam je da i dalje podstičemo aktivnosti koje prave vrednost, donose rezultate i kontinuirano unapređuju sve elemente našeg poslovanja. Vizija kojoj stremimo je da našim korisnicima uvek budemo prvi izbor i da nas naši klijenti, poslovni saradnici i šire okruženje vide kao stabilnog i pouzdanog partnera.

OUR VISION

We passionately believe that a high level of expertise, strict hygienic and safety standards, suitable equipment and a controlled work environment are the only way to create and develop top-quality products.

Testament to this is the smooth operation of our production facility, developed in cooperation with partners in Germany, Canada, Moscow, Cyprus and throughout the European Union, which is made up of several production units. Koloid's production facility operates on the principles of good manufacturing practices, from the input of ingredients right through to the finished products. In due course, part of our vision is to expand our production facility, improve the technology, as well as place our products on other foreign markets.

To do business, grow and develop continuously, turn challenges into advantages, and transform a vision into reality is the inspiration driving us forward. That is how we treat our employees, the environment and the wider community. Employee education, improvement and motivation are a company priority, and socially responsible business is our core principle.

It is our aim to further encourage activities that bring added value, yield results and continuously enhance all aspects of our business. Our vision is to be the go-to choice for our users and a sound and reliable partner in the eyes of our customers, business partners and the wider community.
